**"Olhos de ressaca" porque assim como a ressaca do mar, os olhos de Capitu têm o poder de atrair e arrastar o que encontrar.**

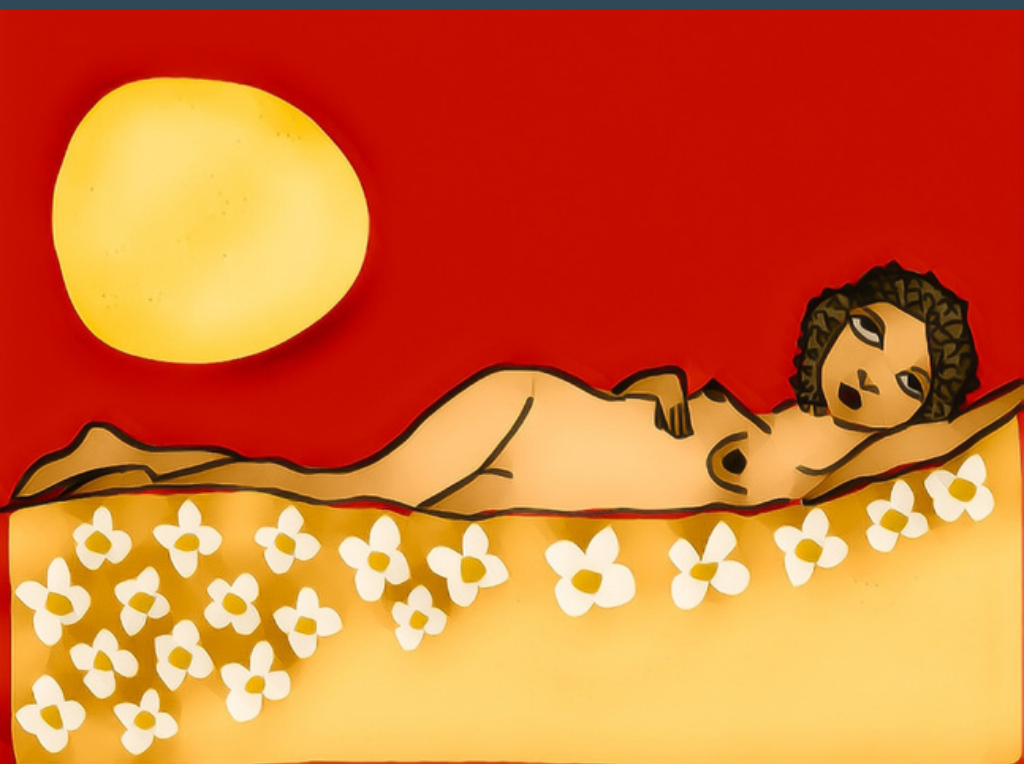

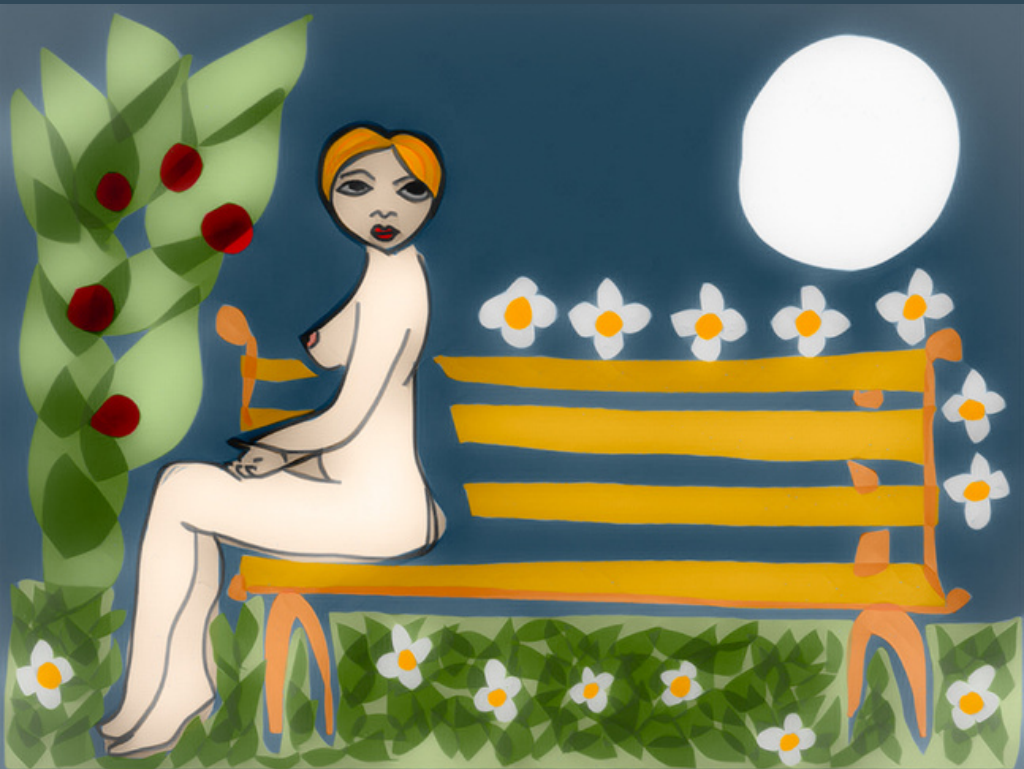

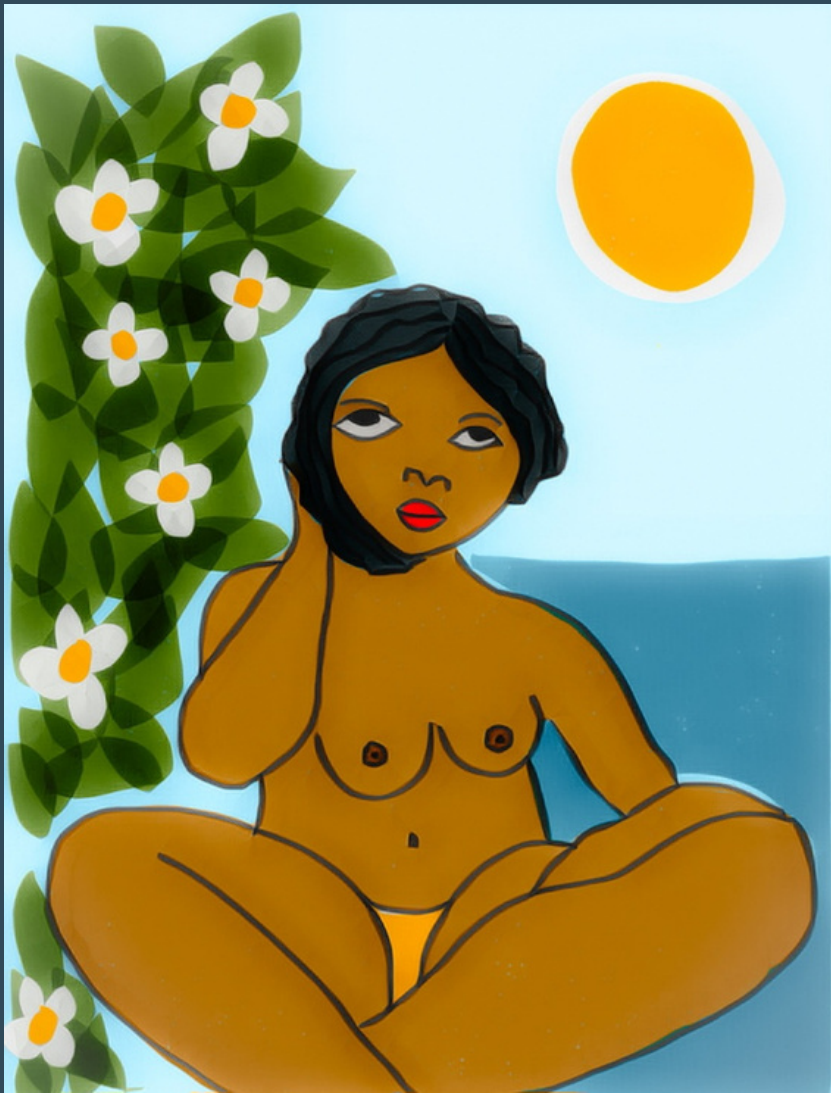

Quando a Lua gira em torno de  
nosso planeta, atrai a Terra  
para si, como se a estivesse  
"puxando" .

Essa atração provoca mudanças  
nos níveis das águas e dos  
olhares.

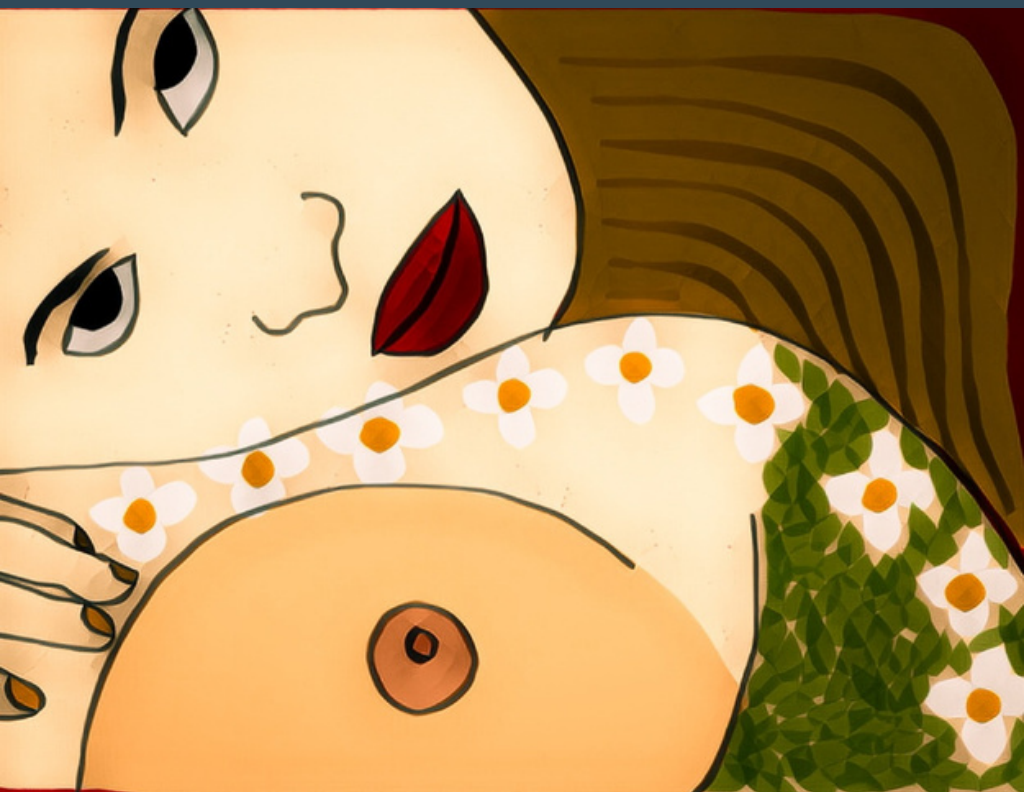

"Tem os olhos cheios de esperança  
De uma cor que mais ninguém possui  
Me traz meu passado e as lembranças  
Coisas que eu quis ser e não fui."  
(Erasmus e Roberto Carlos)
